OUR MISSION

Strategic Solutions and Associates, LLC is a project management-consulting firm dedicated to developing, evaluating and implementing superior quality process designs, measurement systems and resource materials for businesses through support services designed to “*deliver sustainable solutions that work*”.

“The Building Blocks of Quality Management Systems”

ABOUT US

We strive to maximize the business impact by eliminating waste through the application and incorporation of Lean Six Sigma principals - proven, out-put driven methods that yield substantial results.

Our associates have extensive backgrounds in materials management, business information technology, operations management, healthcare compliance, and customer service.

Certified Six Sigma Black Belt (ASQ)
Masters Project Management
Master Trainer
SSBB Instructor - Villanova University
33 years - Healthcare
17 years - Non-profit
6 years - Entertainment

We train Six Sigma Green Belts, Black Belts and Lean Teams using techniques that make the learning experience fun and exciting.

Our “Start Lean, Stay Lean” initiatives provide our clients with the tools needed to make breakthrough improvements for life.

We rescue projects at any phase of the project life cycle.

OUR FOCUS

Project and performance management, measurement and implementation systems designed specifically for companies ready to get the tools needed to become “star performers”.

Each system is customized to the specific needs of the client.

System designs give a practical approach to:

- Assessing customer value
- Defining KPI's and MSE's - Key Performance Indicators and Measurement System Essentials
- Eliminating waste in processes
- Managing time and workspace for maximum efficiency
- Reducing process variation
- Assessing current states and implementing future states
